

20 - 22 GHz Coaxial Isolator, K-Band, 2A9BCZ-ROHS

Renaissance has designed a 20 – 22 GHz coaxial isolator ideal for SOTM communication systems. This K-band isolator is capable of enabling high data rate applications in both military and commercial sectors.

Features and Benefits

- Optimized for 20 – 22 GHz frequency
- Low VSWR and EMI
- High Isolation, Low Insertion Loss
- Temperature Stable
- Compact Footprint

Specifications

Frequency	20 - 22 GHz
Insertion Loss	0.5 dB TYP
Isolation	20 dB
VSWR	1.25 : 1
Power Load	1 W
Temperature Range	0° to 70°C
Size	0.62 x 0.50 x 0.50
