

5.4 – 5.9 GHz Drop-in Isolator, C-band, 2H7NEG

Looking for a C-band isolator for your satellite communication, Wi-Fi application or weather radar system? Renaissance has designed a 5.4 – 5.9 GHz isolator with low insertion loss and high isolation to fit your needs.

Features and Benefits

- Versatile for weather radars, satellite communication systems and commercial Wi-Fi applications
- Low insertion loss
- High isolation
- Small footprint

Specifications

Frequency	5.4 – 5.9 GHz
Insertion loss	0.5 dB
Isolation	18 dB
VSWR	1.30 : 1
Power AVG	1 Watt
Power PK	15 Watts
Temperature	-40°C to 80°C
Size	.500" SQ x .18"
