

7.9 – 8.5 GHz Drop-in Isolator, C-band, 2H7NEH-ROHS

Renaissance offers a C-band drop-in isolator in the 7.9 – 8.5 GHz frequency range to meet your satellite communication needs. This versatile isolator offers REC's signature high isolation and low insertion loss with a compact footprint.

Features and Benefits

- For use in weather radars, satellite communication systems and commercial Wi-Fi applications
- High isolation and low insertion loss
- Compact footprint

Specifications

Frequency	7.9 – 8.5 GHz
Insertion loss	0.5 dB
Isolation	20 dB
VSWR	1.20 : 1
Power (CW)	50 Watts
Load (MAX)	10 Watts
Temperature	-35°C to 75°C
Size	.500" x .500" x .18
