

1.7 – 1.9 GHz Drop-In Circulator, L-Band, 3G4NBN

For use in SatCom and navigation applications, Renaissance has designed this L-band drop-in circulator. With high CW power (60W), this circulator offers a strong VSWR in a small footprint.

Features and Benefits

- High CW Power
- Industrial Temperature Range
- Small Footprint
- Improves System Performance and Reliability

Specifications

Frequency	1.7 – 1.9 GHz
Insertion Loss	0.5 dB TYP
Isolation	20 dB
VSWR	1.25 : 1
Power CW	60 W
Temperature Range	-40° to 85°C
Size	.750 SQ x .30
