

5.4 – 5.9 Drop In Circulator, 3G6NAB

3G6NAB

Renaissance has designed a new C-band medium power circulator with low loss and high isolation for high-reliability transceiver applications.

PRODUCT FEATURES

- Wideband performance
- Low loss, high isolation
- Compact size and wide temperature range

BENEFITS

- Ideal for radar applications
- Improves systems fidelity
- Reduces systems overall size and weight

SPECIFICATIONS

Frequency	5.4 – 5.9 GHz
Insertion loss	.35 dB
Isolation	18 dB
VSWR	1.30 : 1
Power (avg)	50 Watts
Temperature	-40°C to 80°C
Size	.500" x .500" x .18"
