

5.4 – 7.6 GHz Drop-In Circulator, C-Band, 3G7BP

Renaissance has designed a C-band drop-in circulator for use in military and commercial applications, including air, land and naval communication systems. This compact circulator handles 50W power while maintaining REC's signature superior performance.

Features and Benefits

- High Isolation, Low Insertion Loss
- Handles 50W Power
- Many SATCOM applications

Specifications

Frequency	5.4 – 7.6 GHz
Insertion loss	1.0 dB
Isolation	10 dB
VSWR	2 : 1
Power	50W
Temperature	-20°C to +95°C
Size	0.850" SQ.
