

## Drop-In Circulator, 3G9NAG

For satellite communications and space weather radar applications, REC has designed a high power drop in isolator with low loss and high isolation.

**3G9NAG**

### PRODUCT FEATURES

- High power
- Compact and light weight
- Low loss

### BENEFITS

- Ideal for satcom/space applications
- Suitable for flight and earth systems on the move
- Increases systems MTBF

### SPECIFICATIONS

Frequency	15 – 17 GHz
Insertion loss	0.7 dB
Isolation	15 dB
VSWR	1.50 : 1
Power CW	50 Watts
Temperature	-40°C to +90°C
Size	.250" x .250" x .150"
