

### 600 – 6000 MHz 4-Way Splitter, 9A6BAA

For use by the wireless communication industry for ATE applications, Renaissance has developed this array of 12, 4-way splitter assembly. With low loss and its compact size, this splitter ranks superior due to its performance and maneuverability.

#### Features and Benefits

- Used for ATE applications
- Compact size (2U)
- Low insertion loss

#### Specifications

|                         |                        |
|-------------------------|------------------------|
| Frequency Range         | 600 – 6000 MHz         |
| Insertion Loss          | 1.5 dB                 |
| Isolation               | 17 dB                  |
| VSWR                    | 1.40:1                 |
| MAX Power (as combiner) | 2 Watts                |
| MAX Power (as splitter) | 20 Watts               |
| Temperature             | -10°C to 60°C          |
| Size                    | 18.93" x 3.50" x 8.00" |
