Renaissance Electronics/HXI Wireless Edge Newsletter

March/April 2020

Message from our President:

During these difficult and uncertain times, Renaissance Electronics/HXI is still here to serve our Customers needs. From our family to yours, we wish you continued health, safety and prosperity.

For all of our Employees who continue to produce superior quality products and provide exemplary service, we THANK YOU!

Sincerely,
Anuj Srivastava
President & CEO

Radar Solutions
UHF to W-Band

High Power, 8 x 8 Switch Matrix
DC to 18 GHz, 18A7BBK

Renaissance has released a new Switch Matrix that is unique in handling high power signals at lower frequencies while still maintaining the isolation to not perturb low power signals at higher frequencies. The matrix can handle up to 100W at 6 GHz and provide up to 120 dB isolation at I/I and O/O up to 18 GHz. This feature enables the matrix to be used for many different tests during a radar transceiver testing and eliminates the use of additional switching modules.
