## X-Band Surface Mount Circulator

Recognizing the current market demands for medium power phased array applications, Renaissance has designed a truly surface mount 10 GHz circulator that performs just like a drop-in and is pick and place manufacturing processes compatible.

## Drop-In Isolator 2L9NEU-RoHS

With the Satellite market's growing requirements for broader bandwidth isolators, Renaissance has designed a 30 - 33 GHz drop-in isolator in the legacy footprint that covers the new frequency bands with low loss performance.
