

2.2 – 2.3 GHz Coaxial Isolator, S-band, 2A4NFG-DF-S

Looking for a high power, S-band isolator for space application? Renaissance has released a compact design that operates between 2.2 and 2.3 GHz that can handle 100W peak and 75W average, ideal to protect an expensive amplifier. The design complies with space requirements of low outgassing standards while sustaining pressurization and temperature criteria.
