

500 – 690 MHz, Drop-in Circulator, 3G2BF

Covering an extremely wide frequency range of 500 to 690 MHz, Renaissance's 3G2BF is ideal for military radios and broadcast applications. The circulator is a typical drop-in type and can be installed using conventional bolt down techniques for heat dissipation. It can handle 350 W and has low loss of 0.7 dB over -20 to 95C.
