

### 27 – 32 GHz Coaxial Isolator, Ka-band, 2A9NJZ-ROHS

Renaissance offers a new broadband coaxial isolator that is ideal for amplifier protection at Ka-band frequencies. Covering 27-32 GHz, this isolator offers a temperature stable option with high isolation.

#### Features and Benefits

- ROHS compliant
- High isolation, reducing the influence of signals from other channels
- Small footprint
- Temperature stable

#### Specifications

Frequency	27 - 32 GHz
Insertion Loss	1.0 dB
Isolation	16 dB
VSWR	1.50:1
Power	30 Watts
Termination	5 Watts
Temperature	-30°C to 70°C
Size	.50" x .58" x .40"
