

2.3 – 2.5 GHz Coaxial Circulator, S-Band, 3A4NBN

For LTE transceiver applications, REC offers a low cost, coaxial circulator with low loss that can handle 100W peak RF power levels.

Features and Benefits

- LTE frequency bands covered
- Low loss
- High peak power handling capability
- Better system fidelity
- Ideal for 4G & 5G systems

Specifications

Frequency	2.3 – 2.5 GHz
Insertion Loss	0.3 dB
Isolation	22 dB
Return Loss	22 dB
Power (Avg)	50 W
Power (Peak)	100 W
Temperature	-30°C to 70°C
Size	.75" x .75" x .50"
